The Center For Human Potential of America, Inc.

Comprehensive Family & Forensic Services

Successfully Supporting Parents, Children & Families for over 25 Years

The Center For Human Potential of America, Inc. is committed to helping families. We take a compassionate and respectful approach toward all members of the family. Our professional staff is trained, experienced, objective and passionate about the “best interests” of children.

Our experience in both family treatment and forensic assessment enables us to offer a unique continuum of services.

The following are some of the specific services offered by our center:

- ◆ **Parenting Plan & Time-Sharing (Child Custody) Evaluations**
- ◆ **Parenting Coordination**
- ◆ **Attorney Consultations**
- ◆ **Client Consultations**
- ◆ **Divorce/Family Mediation**
- ◆ **Divorce Counseling**

PARENTING PLAN & TIME-SHARING (CHILD CUSTODY) EVALUATIONS

We provide parenting plan & time-sharing (child custody) evaluations that are objective, comprehensive, cost-effective and timely. We help Courts to assess the multidimensional factors that comprise the “best psychological interests” of the children. Our evaluations strictly adhere to APA and AFCC guidelines while addressing all the factors in FL Statute 61.13.

PARENTING COORDINATION

As Parenting Coordinators (PCs) we promote the best interests of minor children who are involved in high-conflict divorce cases. By providing the parents with the assistance they need to more effectively communicate and to more effectively coordinate their parenting efforts, we can help to lessen the duration and severity of parental conflict, thus serving the best interests of all, but especially the children.

ATTORNEY CONSULTATION

We assist attorneys in a number of ways. After a careful review of the facts in a case, we can offer new perspectives and valuable information that helps attorneys develop alternative explanations and interpretations.

CLIENT CONSULTATION

We provide support to clients going through the divorce process. Frequently these individuals become distraught, overwhelmed, and confused. By providing them with information, reframing their experiences, and teaching them important coping skills, they feel more competent and confident to effectively navigate the divorce process.

DIVORCE/FAMILY MEDIATION

For families seeking mediation, we help them work out their own settlement agreements in a private, confidential, and more comfortable atmosphere.

DIVORCE COUNSELING

When individuals are struggling with their after divorce relationships, they may need an impartial, caring individual to help them work through their problems. We offer short-term, solution-focused, counseling to help them do just that.

When children are involved, it is even more important to resolve remaining issues. Many times these issues interfere with a parent’s ability to parent effectively.
